The DR11 / 14 is a unique countertop divider/rounder with manual cutting and automatic rounding with a timer.

11 or 14 pieces depends on the size doughball you are trying to make. From 3.9-22.9oz this machine has you covered.

This machine takes the job of two people and turns it into one. Divide and round 660-880 doughballs an hour!

Very popular in the fast causal space, this unit will save on time and labor cost, while increasing production.

Interchangable cup trays and cutting heads make it easy to swap out 11 or 14 divisions!
