### SLICER CHART

#### Manual or SEMI-Automatic?

If most of your slicing is on-demand or you plan on slicing less than four hours a day, then choose our PrepSaver or Duro manual slicers. For slicing over four hours a day, our Max manual and semi-automatic slicers deliver more power.

For larger operations such as a sandwich shop, school or hospital, a semi-automatic slicer is the ideal choice. It allows you to slice a lot of product at once, and provides precise repeatable slicing without constant supervision. Our medium- to heavy-duty Max and Signature series semi-automatic models provide a maximum usage of 8 and 12 hours, respectively.
