The Decoration

*Hand Painting is custom,
and will require an extra fee

Hand painted

All our ovens can be customized with special hand painted decorations upon request.

Logos, writings or images will be transferred on your oven's surface, making it unique; outstanding.

Starting from a sketch, a picture or just an idea, our artists will create it for you, making it any size and position you want it to be.

The process is realized using special enamels that will allow the decoration to be cleaned and last as long as your oven.

Choose today what feature will make your oven really special: the only limit is your imagination.
