

UFP13

LET'S GET PROCESSING!

Discs Available

Univex UFP13 food processor is a stainless steel tank. Compact body with a heavy duty motor, this unit is made to work all day every day. Food processors are excellent for quickly preping vegetables. With various disk sizes available, the UFP13 can help slice, shred, grate, julienne or dice up to 485lbs/hr.

Extremely versatile, yet affordable to help operators save on labor cost, and increase efficiency.
